A highly versatile slush machine to make and serve crushed-ice drinks (granita and slush), sherbets and cold beverages.

The slush machines are extremely compact in size and include 12 litre bowls, which are easily removable without the use of any tools, for quick and easy cleaning.

FEATURES

Dispense a variety of frozen beverages such as granita drinks, frozen cocktails, fruit juices, smoothies, coffees, cappuccino and tea slush beverages.

May also be operated in chilled drink mode.

REMOVABLE BOWLS

Super strong, virtually unbreakable polycarbonate bowls and covers. 12 Litre Bowl Capacity.

VISCOSITY CONTROL

Automatically shuts down refrigeration (stop compressor) when product reaches desired thickness. (optional)

TEMPERATURE CONTROL

Adjustable thermostat allows operator to unit in frozen or chilled drink mode.

Stainless Steel Body or Plastic sides with elegant design.
